

## HAS CONCLUDED HIS ARGUMENT FOR HAYWOOD

RICHARDSON CHARGES THAT OR-  
CHARD WAS IN DETECTIVES'  
EMPLOY.

## WHEN HE SLEW STEUNENBERG

And Charged a Plot to Disrupt the  
Western Federation of Miners.  
Dr. McGee Freed.

Boise Ida., July 24.—Denouncing Harry Orchard and his "father confessor" McParland, vehemently asserting that the officials of Idaho are the cat's paw for Colorado mine owners and politicians, Attorney E. F. Richardson closed his argument in favor of William D. Haywood. Richardson argued that Orchard was in the employ of the Pinkerton detective agency when he killed Steunenberg, and that the murder was a part of a conspiracy to hang Haywood. He denounced Detective McParland, the Pinkertons, Governor Gooding of Idaho, Governor Peabody of Colorado, Senator Borah and others, and charged the Pinkerton detective agency with a systematic plot to secure the conviction of Haywood, Moyer and Pettibone as a means to the desired extermination of the Western Federation of Miners.

Taking up Orchard's life in the penitentiary at Boise, Richardson said the vile, loathsome creature had been petted and coddled, fed from the warden's table, visited by the governor of the state and called in familiar terms "Harry" by the governor and by the counsel engaged for the prosecution. "Think of this creature associating in a friendly way with a senator of the United States. I do not know that Orchard calls Senator Borah 'Bill,' but I do know that the senator calls Orchard 'Harry.' Now, why did Orchard attempt to commit suicide after he had made his confession? He has confessed to clear his conscience and to make his peace with God. Why, then, after such a confession, should he have attempted to take his own life? There was no reason for it. But, gentlemen of the jury, if Harry Orchard was in a scheme at the instigation of the Pinkertons or anybody else to swear away the life of innocent men, well might his conscience have said to him, 'out of your mouth you have condemned innocent men and that is a burden that should weigh heavily on your soul.' Well might this worthless creature have attempted his life. There is no other explanation for it."

Mr. Richardson took up the incidents connected with Orchard's visit to Caldwell when he was making preparations to assassinate Governor Steunenberg. "Orchard's conduct at Caldwell before the murder of Steunenberg," said Mr. Richardson, "leads inevitably to the conclusion that this man was determined to draw the attention of the whole population to himself. Whether he was in the employ of the Pinkerton agency at the time or not does not appear in the record, but I think I can show before this argument is over that before and after the murder the purpose of Orchard and others was to create evidence such as might lead to the arrest and conviction of the federation officials." After reading lengthy extracts from the Denver newspapers printed at the time of the arrest of Orchard, all of which, he said, showed the hand of the Pinkerton detective agency in the endeavor to link the name of the Western Federation of Miners with the murder, Richardson said that the governor of Idaho and the Pinkerton agency knew when Steunenberg was murdered and Orchard was arrested that he would make a confession.

Dr. L. L. McGee, the witness for the defense who was arrested on the charge of perjury, was discharged from custody by the magistrate before the preliminary hearing was held. The justice ruled that the evidence brought by the prosecution was insufficient to warrant him in holding McGee. Orchard was on the stand again as a witness in the McGee case.

## "FOR GOD'S SAKE DON'T COMPROMISE" CLARENCE DARROW

Boise, July 24.—"We will have to leave the fate of this defendant with you eventually," said Clarence Darrow, in impassioned tones to the jury in opening his great fight for William D. Haywood, whose fate is in the balance. "It is the gate of a world-wide movement, and we ask that you consider carefully every bit of evi-

dence before you make up your mind.

"For months, aye for years, this community has been poisoned by lies in the newspapers which engendered hatred and created a sentiment against this defendant in an effort to hang him.

"This jury has been fed upon this sensational inaccuracy and naturally must be hostile; but we believe you will give this man fair treatment and weigh carefully all evidence against him.

"Why, gentlemen, nowhere in the civilized world would any lawyer attempt to try a case upon such weak evidence as has been introduced in this case were he not relying upon hostile sentiment. There might be some member of a jury who would hesitate to take this man's life on Orchard's perjured word, but might have a lurking suspicion that he knew something about it and want to send him to the penitentiary.

"Don't do it. William D. Haywood is not a coward. Don't you be cowards. If Haywood is guilty, hang him by the neck until dead; but if he is innocent release him.

"Don't, for God's sake, compromise. Be men and judge this case purely upon evidence.

Darrow bitterly attacked Hawley, intimating that he believed the attorney for the state was insane and declared that he lied when he said there was enough evidence in the case to hang Haywood even with Orchard's testimony left out.

He said Hawley lies when he said he was friendly to labor unions.

Haywood's invalid wife sat in her pillowed chair watching with tense features, every gesture, and catching every word of the man who was making a masterly effort to restore to her a husband, nurse and sweetheart.

Only once did tears fall and that was when Darrow declared that Haywood would not flinch nor cower if a rope were placed about his neck, but would fearlessly face death as he faced any situation that had ever arisen in his past.

## BRYAN TO BE A CANDIDATE

## EMPRESS BALKS AT AUTOMOBILE.

EMPRESS AUGUSTA VICTORIA.

Berlin, July 24.—The Empress of Germany was in perfect order and left the vehicle. ## TWO CENT FARE ON ALL ROADS BEING AGITATED

REPRESENTATIVES OF PRINCIPAL  
TRUNK LINES ARE IN  
SESSION TODAY.

## TO CONSIDER THE MATTER

It is Argued That the Increase in  
Traffic Will Compensate for the  
Reduction.

New York, July 14.—Representatives of the New York Central, Erie, Pennsylvania, Jersey Central, Lackawanna, Delaware & Hudson, New York, New Haven and Hartford, Boston & Maine, Baltimore & Ohio and Seaboard Air Line railroads are in session today at the office of President Underwood of the Erie to consider the wisdom of the reducing of passenger rates to two cents a mile.

The New York Central is understood to be leading the party which favors the reduction and the Pennsylvania is to be carrying the banner of the proposition's opponents.

The main purpose of the proposed reduction is said to be a desire to test the financial result of the two cent rate on the railroads that the companies may have positive information with which to meet legislation restricting their rates.

Some of the railroad men think there will certainly be so heavy a loss that they will be provided with a strong weapon to fight future legislation. Others incline to the opinion that a general two cent rate will so greatly increase travel that the companies will ultimately be profited by the change.

## FIRE UNDER CONTROL

The Gray woman is held on murder charge.

## BRUTE SENTENCED TO BE EXECUTED

Paris, July 24.—In spite of the fact that the use of the guillotine in France was suppressed two years ago by the refusal of parliament to continue the appropriation for a public executioner, a jury in this city condemned to death a man named Solieff for the murder of a little girl under atrocious circumstances. After subjecting the child to ill treatment Solieff plunged a knife into her heart, and then completed his horrible work by wrapping the body in an old sack and carrying it to a nearby railroad station, where he chucked it into the track room.

Atlanta, Ga., July 24.—As the result of a determined effort to escape from the brickyard in the western part of the city, two white convicts, Ben Beasley and H. L. Harrison, are believed to be fatally wounded. The men, having gained possession of revolvers, emptied them at O. Duncan, a guard. The shots failed to reach him and he opened fire on the fleeing men. Beasley fell, shot through the abdomen, and Hartman received a bullet through the shoulder and spine.

## THE JAPANESE PLACE EMBARGO ON COAL EXPORTS

Vancouver, B. C., July 24.—According to British naval officers who arrived from the Orient on the Empress of China, en route to England from the China station, the Japanese government has placed a positive embargo on the export of coal from Japan. Operators have been instructed to load no coal for export, and steamers are supplied with only sufficient to complete the return voyage to Japan. It is also stated on the best authority that the government has been inquiring for large shipments of Australian and Welsh coal, the latter designed for coaling stations remote from Japan and probably in the vicinity of the Philippines. The officer also states positively that the Japanese going to Mexico through Hawaii are all service men and veterans of the late Russian war.

## JUDGE ANNULS THE MARRIAGE OF DIVORCES

Dresden, Tenn., July 24.—After granting a divorce to Mrs. Bettie Hargrove from Walter Hargrove, Judge J. E. Jones, sitting in chancery here, has annulled the woman's marriage to D. C. Shackett and fined the latter \$25 for contempt of court. Having secured her divorce, Mrs. Hargrove and Shackett were married without loss of time. Judge Jones, hearing of the affair, summoned the couple into court. Mrs. Shackett admitted that Shackett had employed an attorney for her and paid all the expenses for securing the divorce, and further that they had agreed to be married as soon as the divorce could be obtained. Thereupon Judge Jones annulled the divorce granted and gave Mrs. Hargrove a divorce only from bed and board, which does not permit of a remarriage and necessarily annuls the marriage with Shackett.

It is estimated it will take \$500,000 to finance the deal. The seed is to be delivered by Aug. 1, the market opening on that day. The annual demand averages about 500,000 bushels, a large part of which goes to Europe.

## LORD BARRINGTON GRANTED RESPITE BY GOVERNOR FOLK

CONDEMNED MAN SON OF A  
COACHMAN—POSED AS A  
NOBLEMAN.

## MATRIMONIAL ADVENTURERS

Of Bogus Lord Were Many and He  
Was in Prison When Seven  
Years Old.

Jefferson City, Mo., July 24.—Governor Folk granted a 30-days' respite to Lord Frederick Seymour Barrington, condemned for the murder of a friend. Thursday was the day set for the execution. The governor desires to further consider the case. Barrington is an Englishman, the son of a coachman, but he has always posed a man of noble birth. As a child of seven, he was sent to prison for five years for arson, and since that time he has served time in Germany, France, Spain and the United States. The crimes charged against him at various times have ranged all the way from petty larceny to murder. Barrington first made his appearance in America in 1888, when he was about 30 years old, masquerading as Lieutenant General Lord Barrington of England.

Within a year he married Celestine E. Miller, the daughter of a wealthy Brooklyn family. After squandering her fortune he left her and her mother penniless in London. Soon afterward he married a wealthy Canadian girl, whom he deserted after he had spent her money. In 1902 a Philadelphia heiress became his bride only to be deserted after she had settled a large part of her fortune on her husband. Nothing more was heard of Barrington until he appeared in St. Louis. In June, 1903, he was arrested charged with the murder of James F. McCann, a St. Louis horseman, who had befriended him. The bogus lord was tried and convicted, but fought the case at every turn. In the end, however, his sentence was affirmed by the supreme court of the United States.

St. Louis, July 24.—When "Lord" Frederick Seymour Barrington was informed of the respite granted him he expressed little feeling. "I expected that," remarked the man, leaning against the bars of his cell. "I believe the governor wants more time to study my case, and I am quite sure that after he hears my friends he will at least commute my sentence to life imprisonment."

## HOT WAVE

Mercury Soaring Above the Season-

Washington, July 24.—The highest temperatures of the present summer in the south and the middle west, with the maximum ranging from 80 to 102 degrees and the mercury soaring above the seasonable average over the rest of the country except New England, the Pacific and lower lake states, was Tuesday's heat record as announced by the weather bureau. The high temperatures will continue in the south, the central west states and in the central valleys, but in other sections showers promise relief. In this city the downtown thermometers registered 96.

## AT NEW YORK, CHARLES WARNER, A FORMER MESSENGER, WHOM THE POLICE BELIEVE TO BE INSANE, SHOT DOWN AND ALMOST INSTANTLY KILLED MISS ESTHER NOR- LING, A YOUNG WOMAN.

## TOTAL ABSTINENCE

Was the Subject of a Meeting Held at St. Francis de Sales Church on Tuesday Night.

At the meeting Tuesday night at the Parochial school on Granville street in the interest of Total Abstinence, there was a good sized and deeply interested audience in attendance.

The speakers all made addresses that were listened to with wrapt attention by the assembled hearers. Father O'Boylan explained the plan that he was working on was modeled after the plan used by Father Mitchell, who was one of the pioneers in temperance work and the workers in an strictly unpolitical and unsectarian lines.

He wants every one interested in the cause of temperance to attend and wishes to organize a band of at least 100 young workers to help on the good work for the all important question.

Father Watterson made a strong address along strict drawn lines, advocating the necessity of totality, if we are sincere in wishing to wipe out all predominant evil.

He was followed by Dr. Nichols, who spoke along medical and scientific lines; he gave an explanation of the nefarious effects of the use of alcohol on the human system and made quite an impression by his description of the evils resulting from the use of intoxicating liquors.

Mr. Martin, the attorney made an impassioned address which produced a great effect on his hearers.

A large deputation of the W. C. T. U. was present and Mrs. Sisson, one of the most ardent workers in the cause of temperance addressed the audience with telling effect.

The work is well in hand now and Father O'Boylan proposes to push it along until the good work is felt everywhere in our midst. He and all his parishioners are giving the work their best efforts, and will continue to do so as long as the evil of intemperance exists.

Next Tuesday evening Dr. Wm. L. O'Brien will be here and address an audience along lines of the work mapped out, and as the doctor is an old Newark man and speaker of note, the meeting should be well attended by all of those interested and of those that need the aid of these strong and willing workers.

## PROHIBITION IN GEORGIA

Atlanta, July 24.—With an army of women on the ground as the chief advocates for a bill to fight for the absolute prohibition throughout Georgia, is being fought out today in the house of representatives. The bill has passed the senate and Governor Smith has promised to sign it. Debates may last until midnight.

## WENT ARMED BACK A CORPSE

Kenton, July 24.—Clyde Longfellow, aged 22, who eloped two years ago with Edna Pool, aged 18, killed his father-in-law Wednesday. The two men quarreled in Longfellow's barber shop. Longfellow then shot four times. He gave himself up.

Survivors of Marine Disaster. San Francisco, July 24.—Sixteen names were added to the list of survivors of the Columbia-San Pedro collision. These 16 passengers were in a boat which landed at Shelter cove. The boat also contained two dead bodies, that of Mrs. O. A. Lewis of Pasadena, Cal., and an unknown man, presumably a sailor. The list of survivors now includes 160 names out of a reported total of 257 persons on board. Three dead bodies have been recovered. Ninety-seven persons are unaccounted for.

## MINERS STRIKE IN MINNESOTA

Duluth, Minn., July 24.—Deportation, industrial parades, disruption of business on the iron ranges, Governor Johnson on the ground saying he can have troops in the field within eight hours, and a growing breach between the iron miners and owners, is the situation in this district today. At Hibbing, Minn., a mass meeting of citizens unanimously denounced the strike. Two agitators were arrested at Bovey, Minn., and thrown into the county jail. Armed citizens are looking for more. No agitator

will be permitted to set foot in Bovey. Eight mines at Virginia, not before implicated have been closed by a parade of 3000 strikers.

It is probable the strength of the strikers today is 4000. There are 12,000 miners in this district.

## BALLOON ASCENSION A GREAT SUCCESS

The balloon ascension and parachute drop by Professor Gaines of London, which was offered by O. B. Black on Tuesday as an entertainment for his patrons at his Glenwood lot sale was an entire success.

The aeronaut ascended to a great height, the balloon appearing only as a speck in the sky, when the daring balloonist cut the parachute loose and dropped in safety to the ground. Mr. Black is a great entertainer and a liberal man, and at Wednesday's ascension some one will get a substantial cash prize in the envelope to be dropped from the balloon. At his writing it is not known who got the lot, the deed for which was dropped from the balloon Tuesday.

The sale will continue from day to day and the great double leap from the balloon and from one parachute to another, will take place Saturday afternoon.

The lots are going rapidly, everybody desiring a beautiful site for a home, should go, see and purchase.

Suitable Diet. A jury in Blankville were sent out to decide a case, and after deliberating for a time came back, and the foreman told the judge they were unable to agree upon a verdict. The latter rebuked the jury, saying the case was a very clear one, and remanded them back to the jury room for a second attempt, adding, "If you are there too long I will have to send you in twelve suppers."

## EMBEZZLEMENT THE CHARGE

County Clerk in Kentucky Is Placed Under Arrest.

## SENSATION AT LOUISVILLE

Alleged Shortage of From Forty-five to Fifty Thousand Dollars Reported by the Head Bookkeeper—Accused Man's Office Recently Declared Vacant by Court of Appeals.

Louisville, July 24.—On a charge of embezzlement, William J. Semonin, retiring county clerk, was arrested, it being alleged that he is short in his accounts as clerk of Jefferson county, in a sum approximating from \$45,000 to \$50,000. The arrest was made at the instance of Mayor Bingham and caused a great sensation. Mr. Semonin was one of the officials whose office was declared vacant by the court of appeals in deciding the election contest cases. He was elected as a Democrat. When his successor, Phillip B. Thompson, was appointed a few days ago, the accounts of the office were checked up with the result that the head bookkeeper declared that there was a shortage of over \$45,000. There had been rumors of a shortage for two years, but the books of State Auditor Hager, when examined, showed Semonin's accounts with the state to be correct up until June 1, 1907.

When Semonin's successor was appointed, the former had just mailed a check for \$15,000 to the state auditor's office for the month of June. Payment on this was refused by the bank on which it was drawn, and Mr. Semonin declared publicly that he had stopped payment when he found he was not to be retained in his office, his idea being to have all accounts checked up and to settle in full with the state on his retirement.

When interviewed Semonin stated emphatically that a full examination of the books would show that he did not owe the state over \$22,000, the amount of his collections for June and July, which he had the legal right to withhold until he had been given his quietus, and which will be paid in full. There was no shortage in the legal or moral sense of the word, he declared.

A heavy wind and rain storm devastated Clinton, W. Va., and vicinity, causing damage that will run well into the thousands of dollars. A church was wrecked, several residences crushed and others razed.

It makes some fellows chummy to think of all the medals coming to them.

## CROTON.

Mr. A. D. Burrell has bought the Jasper Hall farm north of town, the purchase price being \$3,800 for sixty acres.

Dr. Leatherman of Columbus is spending a few days here with his sister, Mrs. D. L. Perry.

The ladies aid society of the M. E. church held an all-day meeting at the home of Mr. J. N. Oldaker, Thursday. Sewing and knitting comforts was the work for the day. A number of visitors from the country and Centerville were present, in all about forty.

At the noon hour a sumptuous dinner, consisting of chicken-pie and all the good things of the season were served. In the afternoon one hour was devoted to devotional service. Miss Leona Evans was present and recited in her attractive way. Mrs. Bertha Watson gave some fine selections on the piano, which was much appreciated. After several impromptu speeches by the visitors, all joined in singing "Blest be the tie" and adjourned to meet in one month at the

## Now at Hotel Doty, Newark, Ohio, For Three Days Only

The X-Ray Specialists of the Bi-Chemic Medical Institute, Columbus, Ohio, will remain at Hotel Doty Thursday, Friday and Saturday, for three days more. The Doctors extend a cordial invitation to every afflicted man and woman to call for FREE advice and consultation. Do not neglect this opportunity. Call early and avoid the crowd. Office hours, 9 a. m. to 8 p. m.

## True Specialists

The physicians of the X-Ray Medical Institute are specialists in the true sense of the word—not because they claim to be, but because a life-time of special study, special learning, special training, special experience and constant application to one special line of work has made them masters of the special diseases which they treat and cure.

## Cure Their Patients

Because they are true specialists, through genuine knowledge, experience and training obtained by years of hard work and study, and have equipped themselves with all the latest and most valuable products of modern medical science in the cure of disease, they cure their patients (most of them after numerous other doctors have failed).

**NOSE** Acute and Chronic Catarrh of the nose and air passages of the head, polypus and other growths in the nasal passages, positively cured without surgical operations by this treatment alone.

**THROAT** Catarrhal sore throat, acute and chronic pharyngitis, enlarged tonsils and palate, hoarseness, loss of voice, paralysis of the vocal cords and all forms of throat trouble.

**THE EARS** When catarrh is allowed to continue uncurred for a time in the nose and throat, it is liable at any time to extend up the Eustachian tubes (the little air tubes, leading from the upper part of the throat into the inner ear), and set up catarrh of the inner or middle ear, which is the cause of 95 per cent. of all the deafness in the world. The symptoms are a feeling that the ears close up on swallowing or blowing the nose. A sense of tightness or fullness in ears, which at first comes and goes. Sounds seem to be away off, which continues off and on until you realize that your hearing is a little dull, which gradually increases. Sometimes preceding and sometimes accompanying is a buzzing, ringing, roaring, rumbling, hissing, humming, singing, whistling or throbbing noise.

**LUNGS** Consumption in the first stages, hemorrhages, chronic bronchitis, dry or loose cough, pains in chest, difficult breathing, acute and chronic asthma, hepatization, etc., positively cured by our combined treatment.

**HEAD** Neuralgia, sick, nervous or congestive headache, dull, full feeling at base of brain, loss of memory, dizziness, softening of brain, tumors and eczema of scalp.

**home of Mrs. Burns Trout.** Mrs. Evans Willis of Columbus is visiting her husband's parents, Mr. and Mrs. Cyrus Willis.

Mrs. Nora Dixon, who has been quite sick, is reported some better.

Mrs. Nettie Carey of Columbus is visiting her brother, Fay Lincoln.

Dr. J. W. Haines, who purchased the Warner corner some time since, has commenced excavating for the cellar, and is preparing to erect a new office building, which, when completed, will add much to the beauty of the square.

Miss Aubrey Pratt of Johnstown visited over Sunday with Coe Burrell.

J. R. Moore and daughter Fannie, Mr. and Mrs. E. L. Moore, Mrs. William Ingler and George Vanatta and Miss Nan Showman were in Zanesville Tuesday attending the funeral of L. A. Moore.

Children's washable suits—all reduced in price at EMERSON'S.

## HEART Palpitations, irregular pulsations, valvular diseases, weak and fatty heart, dropsy and rheumatism of the heart, languid circulation, etc.

**KIDNEYS** Inflammation of the kidneys, Bright's disease, diabetes, congestion of the kidneys, uraemia, gravel stone, all scientifically and successfully treated by our combined treatment.

**BLADDER** Inflammation, cystitis, cystorrhoea, catarrh of the bladder. These distressing diseases invariably yield to our system of combined treatment.

**RUPTURE** Quickly cured without use of the knife, and without detention from business. A painless, sure and permanent cure.

**RHEUMATISM** Acute and chronic rheumatism in all its forms—enlarged and stiffened joints, muscular rheumatism, lumbago, sciatica, etc.

**DISEASES OF RECTUM** Fistula and piles (hemorrhoids), internal or protruding, itching, excoriations, etc., positively cured without the use of knife.

**FEMALE DISEASES** In ovarian and uterine troubles the treatment is most pleasant and soothing, decided benefit and relief are quickly felt and appreciated and permanent cures are accomplished WITHOUT THE HORROR OR DANGER OF THE SURGEON'S KNIFE. All women suffering from any pelvic affection are especially welcome to our confidential advice.

Diseases that have baffled the skill of many physicians and resisted all former methods of treatment, maladies that always heretofore have been regarded as incurable, are treated with remarkable and unvarying success at the X-Ray Institute.

Come and be examined. Come and find out what your trouble is, and we will advise you in reference to a cure. Consultation and advice in person or by letter free and invited.

**NERVOUS DISEASES** Diseases of the Nervous System require the highest degree of medical skill for successful treatment. Epilepsy, chorea or St. Vitus dance, paralysis in its various forms, dysteria, spinal irritation, nervous debility, nervous prostration and other derangements or lesions of the nerves, brains or spinal cord, are usually very obstinate and often regarded as incurable. The majority of such cases are incurable by the ordinary methods, yet they yield readily to the powerful but beneficial influence of our system of treatment. The first thing in the treatment of these diseases is to locate the cause of the disease, which is often obscure. Science enables us to accomplish this.

FIRST RHODES  
SCHOLAR DONE

Crittenden of California is Home—  
He Made a Fine Record and  
Likes England.

Shirley Wing, son of Charles M.  
Wing, formerly of Newark, will go to  
England being one who won a Rhodes  
scholarship.

Rhodes scholars from the wild and  
wholly western hemisphere may have  
sent chills up and down the spine of  
old Oxford by perforating window  
panes with bullets from 44 caliber six  
shooters, and stories may have come  
across the sea as to the rather poor  
rank of the American students, but  
California, just the same, is pretty  
proud of a young fellow named Wil-  
liam Crittenden, who recently got  
back from his course as a beneficiary  
of the great foundation made by Cecil  
Rhodes, says a Berkeley, Cal., special  
dispatch to the New York Times.

Crittenden was the first Rhodes  
scholar to reach Oxford. He was also  
the first to get away—at least the  
first to get away with a clean record  
for the full course. As a matter of  
fact, Crittenden finished up his three  
years' work in two years and spent  
the extra year seeing things in odd  
corners of the continent and in tak-  
ing a special course in law.

Now, about everybody in the  
Berkeley section of California knows  
Crittenden. In fact, he is notorious.  
To begin with, he was one of the  
brightest pupils in a school here-  
abouts. As one result of his youthful  
attainments, he was picked out by a  
man who runs a chain of newspapers  
in America to make the trip around  
the world and tell all about it in ev-  
ery edition from the Connecticut  
"bulldog" to the 11 p. m. extras. He  
did the job very conscientiously.

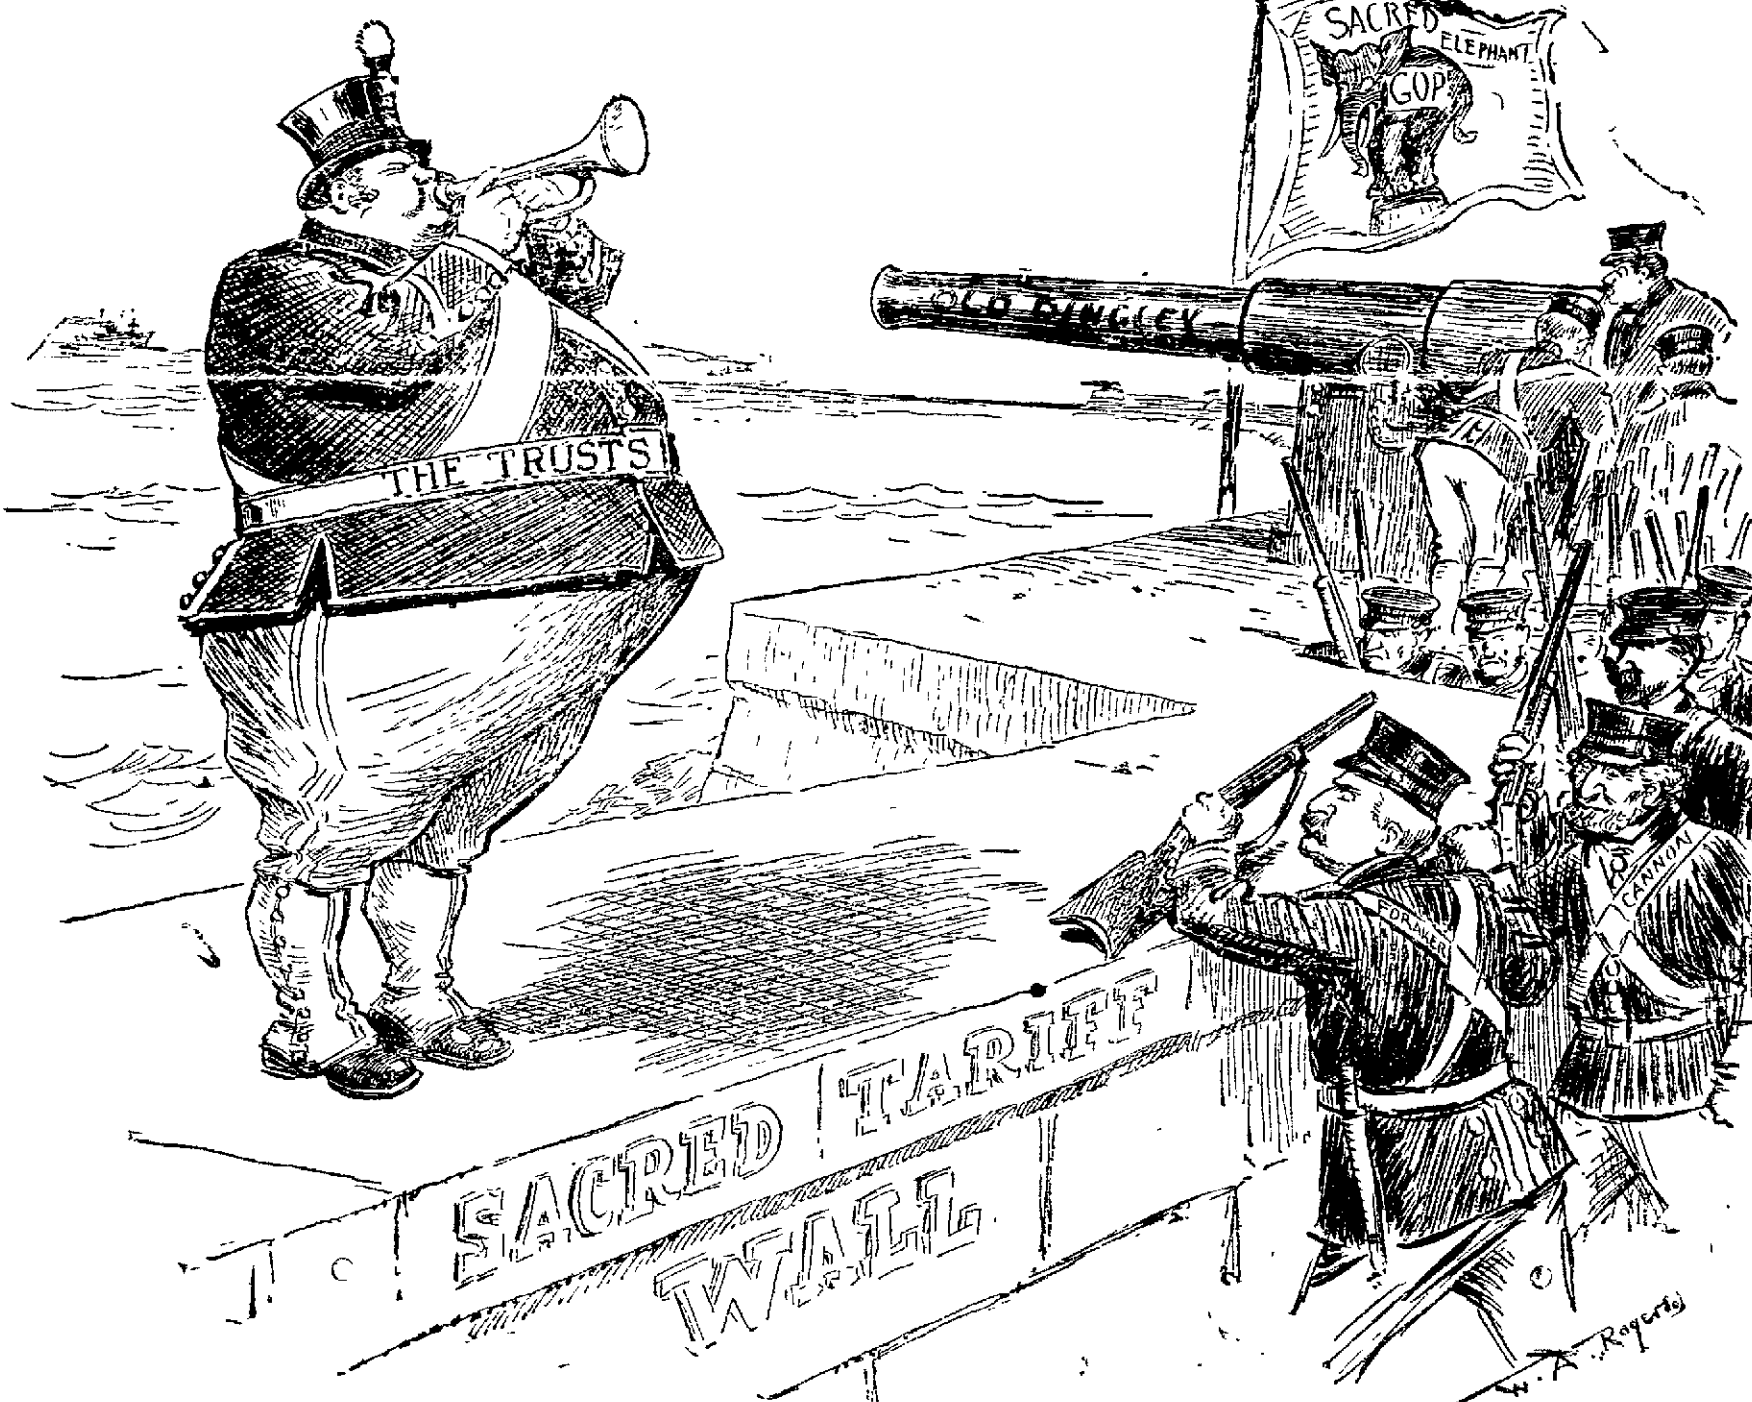

When he got back and went into  
the University of California, every-  
body seemed to know all about Crit-  
tenden, and the hazing that he got in  
his freshman year would put West  
Point in the shade and cover it up  
with leaves. Pretty much all his first  
term was spent in telling inquisitive  
upper class men in compulsory lec-  
tures just how he and the newspaper  
chain had done it. Just the same, he  
took it all in the proper spirit and  
came to be one of the most popular  
men in college. He was president of  
the junior class at Berkeley when he  
was picked to go to Oxford.

From what can be learned unofficially  
about Crittenden's stay at Ox-  
ford, he seems to have been the best  
of the American students so far as  
rank goes at least. Anyway, California  
will claim that honor until the  
returns come in.

There was a lot of talk awhile ago  
about the poor scholarship of the  
American Rhodes men. Crittenden  
says that they are all doing very well.  
Furthermore, he believes that the  
Rhodes plan is a great one and will  
be of lasting benefit. "The first

A Time When Heart and Patience  
Were Taxed Almost to the  
Breaking Point.

year," he says, "the Americans did  
not take things seriously enough. The  
life was so free and easy that the  
Americans did not seem to realize  
that there was any work to do. The  
second year, however, the men got  
down to real work, and now they  
have a higher regard for the English  
system of education than they had at  
first."

For the English students whom he  
met at Oxford, Crittenden has only  
warm praise. "I do not think," he  
says, "that the people of this country  
appreciate the Englishmen. The  
English are about as honest and sin-  
cere and straightforward fellows as  
you can meet anywhere. They are not  
at all effusive; they have a sort of  
dignity and reserve about them; to be  
sure, but once you get to know them  
they certainly are fine fellows. They  
stick by one another in splendid  
fashion."

"They received us Rhodes scholars  
with a great deal more courtesy even  
than they show one another. They  
knew we were strangers and tried to  
do everything they could to put us at  
our ease. They seemed to see that if  
the Rhodes scholarship scheme was to  
succeed they would have to give us  
and opportunity to see the English  
home and the English life. Taking it  
for granted that we were decent sort  
of men, they invited us to join the  
different societies and asked us to  
visit their homes. I remember that  
one man invited us to shoot deer in  
his private park. That of course was  
rather tame sport for a Californian,  
but one couldn't help appreciating  
the spirit in which the Englishman  
gave the invitation."

Crittenden while traveling in Asia  
Minor a short time ago had an adven-  
ture with a gang of bandits. Now he  
is prepared to settle down to law  
practice or at least to the further  
study of that profession, with the  
rich field that San Francisco now af-  
fords as an inducement to remain in  
that part of the country.

CONFLICT OF INTEREST  
IN THE WEATHER.

Once there were two agricultural-  
ists—  
One raised wheat—  
And the other one raised corn—  
Now corn likes heat,  
And corn likes rain—  
But wheat should have the sun,  
Since the harvest has begun.  
So the man that raised wheat,  
Prayed to his 'God' to send no wet  
'Till into his barns the harvest he  
could get  
And the man that raised corn,  
Which was looking so forlorn,  
He prayed to his God—  
To send the rain—so the corn would  
spruce up, look green again.  
Both fools were they—  
To ask the just and good God  
To set aside one of his immutable  
laws,  
For their especial benefit!  
Year after year in the great cycle of  
time,  
The crops come good and the  
crops fail;  
No one who works has starved yet,  
And prayers are of no avail  
Your good luck is some one's bad  
luck.  
There is no loss, no appreciable  
gain;  
The great big plan is fixed—  
And works itself over and over  
again.

QUICK WORK OF  
FIRE DEPARTMENT

Probably Saved Adjoining Property  
When Barn of William Graef  
Burned Tuesday.

At about 5:05 Tuesday evening  
the Central fire department was called  
by an alarm sent in from box 31.  
The department responded quickly,  
and found the fire to be in the now  
at the stable in the rear of Wm.  
Graef's residence, 53 Clinton street.

It was well ablaze when the fire  
laddies arrived, and was soon gotten  
under control. Mr. Graef, owner of  
the stable, is agent here for Terre  
Haut beer. His wagons were in the  
stable, also one horse, all of which  
were saved by the neighbors before  
the fire department arrived.

The cause of the fire is unknown;  
none of the employees being in the  
mow that evening, as the hay for the  
horses had been put down at noon.  
The building and contents were  
fully insured, stable probably dam-  
aged to the amount of about \$125,  
and a ton of hay was destroyed.  
There was no further loss, but for  
the quick and effective work of the  
fire department other buildings in the  
vicinity would have soon been on fire.

MORE TOWNS

Are Being Connected Up With Gas by  
the Ohio Fuel Supply Company  
This Summer.

The Ohio Fuel Supply company is  
constantly making connections with  
new towns along its line from the  
Knox and Licking fields to Cin-  
cinnati. During the past few weeks  
West Jefferson and Cedarville have  
been connected. Cedarville is not yet  
quite piped, but gas will be furnished  
its residences by August 1.

A large number of new contracts  
are being made by the company to  
turnish gas for manufacturing pur-  
poses despite the increase in the rate  
to 15 cents. The contracts do not ex-  
pire until October 1, but already a  
large number of the manufacturing  
establishments are sending in for new  
contracts. In some cases coal  
will be used under the boilers, while  
natural gas will be used elsewhere in  
the plant. It is not believed by Gen-  
eral Manager Gerard that there will  
be any great falling off because of  
the increase in price.

The connections to supply Cin-  
cinnati are now being made, and it is  
expected to have everything ready to  
supply the city under the contract  
with the Columbus company by Sep-  
tember 15. The high price of pipe,  
which is 50 per cent higher than two  
years ago is causing the company to  
only do what new work is absolutely  
necessary. The preliminary surveys  
are being made from the West Vir-  
ginia fields to Cincinnati, but pipe  
will not be laid before spring.—Ohio

THOUSANDS FLOCK TO SEE LONG BRANCH WHALE.

WHALE ASHORE AT GALILEE, N. J.

LONG BRANCH, N. J., July 24—There have been stories published of sea serpents, sharks and the like  
captured, or, rather, seen along the Jersey coast, but it has been thirty years since a whale has been landed on  
the North Jersey shore. The big whale towed ashore in front of life saving station No. 4, at Galilee, was the  
center of attraction today. As early as 8 o'clock Nelson Lockwood, who saw a harvest for himself and his fish-  
ing crew, began trimming the big whale and selling the fins for twenty-five cents apiece.

FELL FROM LOAD OF HAY.

Purity, O., July 24—Stephen Har-  
ris fell from a load of hay Friday and  
sustained some painful but not serious  
injuries. At first it was thought  
his right shoulder was dislocated,  
but upon examination it was found to  
be only sprained.

LEFT LEG BROKEN.

Bladensburg, July 24—John Earle-  
wine sustained a bad fracture of his  
left leg Tuesday, while riding on a  
hay rigging. One of the horses when  
he was driving kicked him fracturing  
bones of his leg just above the ankle.  
Dr. J. F. Shrontz of Martinsburg was  
called to reduce the fracture.

Martinsburg, July 24—Mrs. Edw.  
Burkholder of this place had her arm  
nearly severed in a most peculiar  
manner while canning fruit Saturday  
afternoon. She was in the act of  
tightening a self sealing jar when the  
jar burst, cutting a terrible gash in  
the forearm. Several of the arteries  
were severed and she came near  
bleeding to death before the flow  
could be checked.

Dr. Marriot was called from St.  
Louisville, and it was necessary for  
him to take fourteen stitches in the  
wound before it could be closed.

Mrs. Burkholder is yet very weak  
from loss of blood, but it is thought  
she will recover.

MORE GAS WELLS.

Mt. Vernon, July 24—The Logan  
Natural Gas company has drilled in  
two excellent gas wells during the  
past three days. On Saturday a six  
million well was secured on the Wat-  
son farm, and on Monday afternoon a  
four million well on the Jacob Ash  
farm. Both these wells are in com-  
paratively new territory.

BUILDERS AND TRADERS

GOING TO BUCKEYE LAKE.

Columbus, July 24—Members of  
the Builders and Traders Exchange  
are looking forward with a great deal  
of anticipation to the annual gather-  
ing of their organization to be held  
this year at Buckeye Lake Park on  
Thursday, July 25. A great many  
things have been planned for the  
day, probably the greatest feature of  
which will be the baseball game be-  
tween the Columbus organization and  
a team to be made up of members of  
the Newark Exchange and the Zanes-  
ville Chamber of Commerce.

### SCENE IN SEOUL—TYPE OF MUTINEERS—GENERAL IN CHARGE.

UNITED STATES CONSULATE AT SEOUL, KOREA.

GENERAL HASAGAWA, JAPANESE OFFICER CHARGED WITH PRESERVATION OF ORDER

KOREAN SOLDIERS.

Seoul, July 24.—There has been sporadic shooting throughout the city all day, and one of the Japanese policemen has been killed. A German subject named Brinkman has been wounded. The number of casualties among the Koreans is not known. Although the outlook is quieter this afternoon the authorities regard

the situation as very menacing and have demanded reinforcements. The Twelfth Japanese division is in readiness for immediate transport in the event of a crisis. The present Japanese force in Korea is slightly in excess of 10,000 men, spread throughout the country. No outbreaks outside of Seoul have

been reported, but it is feared as the news of the stirring events of the last few days percolates to the provinces that anti-Japanese outbreaks will become general. Japanese civilians are pouring into the city from neighboring places. The authorities recognize the possibility of a general mutiny among the Korean soldiers.

### FOREMAN

Saved Lives of Forty Laborers When New Sewer Was Flooded in New York.

New York, July 24.—Forty laborers ran, swam and fought for their lives when the new sewer in West Forty-sixth street was flooded, and but for the coolness of Foreman Ben Connors all would have perished. The men were working in the tube, which is 100 feet in length and 40 feet below the surface. Suddenly a break occurred in the old sewer above them, and the gushing water poured into the open end of the tube. The only exit was at the opposite end, where an air shaft led to the surface. Screaming and fighting, the men wedged themselves into a helpless mass, and all were in imminent peril of drowning. Then Connors, who led the way to the shaft, took a hand and, swinging a club, threatened to brain every man of them if they did not obey him. Then he ordered them to form four abreast and march. Some marched, but more swam. One by one the men gained the shaft and climbed the ladder to the street. Connors was the last to leave the sewer, and when he did he rose from six feet of water.

### A BUSY DAY IN POLICE COURT

Bound Over to Probate Court—Don't Sleep on the Court House Lawn These Hot Nights.

Wednesday morning's session of police court was a busy one for Mayor McCleery.

The case of Jesse Davis, carried over from Tuesday was first on the docket. He was arrested by Officer Lytle, charged with indecent exposure of person. After hearing the testimony of the officer Davis was bound over to the Probate court in the sum of \$300 in default of which he was sent to jail.

The case of E. A. Cooper, which had also been carried over from Tuesday was next heard and the prisoner was discharged. He had been arrested for disorderly conduct in a resort on Walnut street, but proved to the mayor that he was there on business, having visited the place to secure a ring which belonged to him.

Wm. Richey of Mt. Sterling, was disturbed from peaceful slumbers about 2:30 Wednesday morning while taking a nap on the court house lawn, which is in violation of a city ordinance, and was forced to spend the remainder of the night in the city prison. At his hearing this morning he claimed he had no home and didn't want any. He was fined \$1 and costs, which was suspended on promise of good behavior in the future.

Walter Turner, brought in on a charge of disorderly conduct, was dismissed.

John Bennett took a few too many on board and broke a window glass at Fulton's place, corner of Fulton and Sixth streets. John drew \$5 and costs for tampering too freely and was ordered to make good the damage which he had caused.

### BLACKMAILERS

Said to Have Their Secret Headquarters in Chicago, Says Armenian.

Chicago, July 24.—Chicago is the headquarters of the secret organization which was responsible for the death of Hovhannes S. Tavshanjian, the wealthy Armenian rug man of New York, according to Joe Bishkian, a prominent countryman of the dead merchant. Bishkian said that a Chicago Armenian was the leader and directed all the proceedings of the society. The Chicago society is an offshoot of the original Hunchakist, which was formed in London in 1857 for the purpose of carrying out the ideas of the revolutionists of Armenia. Bishkian declares the seceders founded the new Hunchakist for the purpose of blackmailing.

TUESDAY'S RESULTS. Newark 1, Sharon 0. Newark 5, Sharon 0. (7 innings). New Castle 5, Lancaster 1 (first game).

TODAY'S GAMES. New Castle at Newark. Sharon at Lancaster. Youngstown at Marion. Akron at Mansfield.

TOMORROW'S GAMES. New Castle at Newark. Sharon at Lancaster. Akron at Marion. Youngstown at Mansfield.

Tuesday was the banner day in local baseball for the lovers of the national game in Licking's capital for we copied two from the Medicine Men from Sharon, making it three straight, all of them shutouts at that. We are feeling pretty comfortable, thank you, and doff our hats to Marion and Mansfield who assisted in the good work of boosting the Molders along a little further towards the top, the former defeating the Youngstown boys and the latter the Rubber Necks of Akron.

The two games at the bargain matinee at Wehrle Park, Tuesday afternoon were interesting from the time Umpire Hart called play in the first game until the finish, and a number of high class plays were made by both teams. Your Uncle Joseph Stoup was the man largely responsible for the result, pitching both games, allowing eight hits in the first and but one in the second. Had it not been for Mr. Kerr's little bungle in the seventh it would have been a no-hit affair.

One Mr. Malarkey tried to stop the Molders in the first and did excellent service, allowing but four hits, but it was all in vain for the big three bagger swat of Dr. Abbott's in the third did the business that brought in the winning run. Malarkey pitched a pretty game but Uncle Joe was the whole truth. His foolers were wonders and not a Sharonite crossed the home plate. Verily it was an off day for the three S aggregation. The down east boys had several good bunts in the sixth and seventh innings but they could not pull them off. In the sixth Greene got a double, was advanced to third by Patterson's line drive to first but died there on an out by Mathew to Abbott. In the next Kerr followed with a double, was sacrificed to third by Sellers but died in attempting the squeeze. That was the best they got in either game.

One Bunney Pearce caught both games and he did yeoman service. Equipped with a brand new bat he started forth to fatten up his excellent batting average but the fates were against him, for while he faced the twirler six times he was not credited with a single time at bat, receiving four free tickets, was hit in the slats once and was credited with a sacrifice. He it was who copped the only run, crossing the plate on Abbott's three sacker.

SAID TO BE A HEN ON IN O-P POLITICS

There's a hen on in the O. P. states the Youngstown Viadicator. Under-ground politics in the organization are beginning to hum. According to reliable information within few days a move will be made if not for the immediate organization of the circuit at least preparatory to realigning the clubs of the O. P. and Central leagues for a new organization next year with the approval of the national association.

The only indication as to which way the wind blows so far was the resignation of President George Mahany of the Sharon club a few days ago. The Sharon triathlete is no longer a unit in its opinions as to matter of policy. Mahany, it is said, is weary of emptying the pockets of his jeans without results and so has pulled out of the club, leaving the burden entirely on the shoulders of Messrs. Boyle and Clepper.

If seemingly authentic reports from Cleveland are true the franchise of the Sharon club was last week offered for sale to Manager Hermann Schelman of the Sandusky independents. President Mahany was the man who offered Sharon baseball interests, lock, stock and barrel to Schelman.

From one of those interested in the affairs of the Youngstown team, comes the information that within two weeks representatives of O. P. and Central league towns will meet and talk over plans of getting together. Ede, of the Interstate, may also be represented at this gathering, with Youngstown, Akron and New Castle of the O. P., and Wheeling, Dayton, Canton and Springfield of the Central. It is possible that the result of this meeting will not be made public until the annual gathering of the National Association in New York next January.

WALTER PROPHECIES A LITTLE BIT EARLY

Manager East says he would just as soon have his team in second or third place at this time of the season as in first, says the Akron Beacon-Journal. Here is his reason: "The men do not worry so much when they are not leading. The other teams do not plug so hard to beat you when you are down in the standing a little. Of course, it is not well to go out of reach of first, but to be in third with a chance for the first at any time, just suits me."

East says his bunch will step to the front when the time comes. He is more than satisfied with the team he has. Every man has been working like a veteran for every game. That is the system of battle that counts, and the kind that will tell when the final dash comes.

Second or third will now do very well for the Tip Tops, but they will not be satisfied with this during the

Not a drop of Alcohol

Doctors prescribe very little, if any, alcohol these days. They prefer strong tonics and alteratives. This is all in keeping with modern medical science. It explains why Ayer's Sarsaparilla is now made entirely free from alcohol. Ask your doctor. We have no secrets! We publish J. C. Ayer & Co. the formulas of all our preparations. Lowell, Mass.

DIAMOND DUST.

Your Uncle Joseph was there with the goods. Two shut out games in one day for a pitcher isn't a bad record, is it?

The second came near being a no hit game.

Four games ahead of Youngstown while the latter team has lost two more than the Molders makes it pretty safe traveling for awhile. We have seven more games to our credit than Akron and thirteen more than New Castle.

In the fifth inning of the second game Tuesday the sun caused Dr. Abbott to drop Wizer's high one. Marion had only made two runs in the last thirty eight innings up until Tuesday when Youngstown allowed them to score five more.

Larry Keane, an infielder, has been ignoed by Mansfield. Dick Tibbits may be let out, if he makes good.

President Johnson of the American league has promulgated a rule to the effect that a fine of \$100 will be imposed upon the club on whose grounds bottle are thrown at players.

Did you notice Capt. Bob on the coaching line Tuesday. He was there at all angles and helped the boys land both games.

Sammy Haval made a great stop of Strom's hot grounder in the sixth, picking it up with one hand while on the run and retiring McClafferty at second.

Today is ladies day and the fair fans are out in force. They are getting into the habit also and are there with their brothers when it comes to rooting.

New Castle will be here for two games and then comes Youngstown for Friday and Saturday. Akron will be here the 28th and 29th after which the team takes a trip abroad to be gone until August 13.

Jack McAleese leads the O. P. league in the number of stolen bases, he having 36 to his credit, while Capt. Starr leads in the number of hits, having made 80. Curt Elston is next with 76.

"Muggsy" McGraw has offered to pay \$10,000 in cash for any minor leaguer who can cover the second sack for him at a 950 clip and bat .300 from now until the end of the season.

Abbott, Snyder, Wratton and Murray were each credited with a hit in the first game with Sharon Tuesday while in the second Murray and Gygli fattened up their batting average by getting two each and Snyder, Schweitzer, Haval and Stoup one.

"Tacky" Volk of Akron, is now playing shortstop for South Bend of the Central league, temporarily. It is said that Jimmy Breen will re- turn to Lancaster in a day or two (Continued on Page 7, Col. 3.)

S.S.S. REMOVES BLOOD HUMORS

When the blood becomes infected with unhealthy humors the effect is shown on the skin in the form of pimples, rashes, eruptions, or some other type of skin disease. These humors circulating in the blood, come in contact with the delicate tissues and fibres of the skin and produce irritation and inflammation, and often excessive itching and burning. Trying to cure skin troubles with external applications is treating the effect instead of the cause. Such treatment perhaps allays some of the itching and discomfort, but does not reach the blood where the real source of troubles lies. A thorough cleansing of the blood is the only cure for humors in the blood. S. S. S., a gentle acting, safe blood purifier, is the proper treatment. It goes down into the circulation and neutralizes the humors and removes them from the blood. S. S. S. supplies the blood with the fresh, healthy properties necessary to sustain the skin and keep it free from disease. S. S. S. cures Eczema, Tetter, Acne, Salt Rheum, pimples, boils, rashes, and all other skin affections and diseases, because it purifies the blood and removes the humors which are responsible for the trouble. BILL BANNON'S INITIAL GAME

The sporting editor of the Marion Mirror has the following commendation to offer Bill Bannon for the great game he put up at first base on his initial appearance with the Champs. "Bill Bannon made his first appearance on the amen corner and performed in great style. Bill was stretched out on his stomach, up in the air with one mitt down on the ground taking the throws of the infielders, but it did not matter to the former umps where they threw them. The crowd gave Bannon an ovation the first time he came to bat and followed it up with several more later."

OPENING OF THE BROOKLANDS MOTOR TRACK

Automobile track racing, such as has been introduced on the new Brooklands special cement course at Weybridge, England, is believed by many to be the advent of a new form of motor sport. Speed limit on such a course seems to be unlimited and it is likely this racing will prove a severe test for modern internal combustion engines. As a spectacle some persons enjoy it more than they do the big long distance road races. The cars can be kept within constant view and the turns and brushes on the straightaways are most exciting. The accompanying picture shows a view of the recent race meet in the track when several valuable cups were offered and were competed for by some of the noted automobile racing drivers of Europe.

Tuesday was the banner day in local baseball for the lovers of the national game in Licking's capital for we copied two from the Medicine Men from Sharon, making it three straight, all of them shutouts at that.

We are feeling pretty comfortable, thank you, and doff our hats to Marion and Mansfield who assisted in the good work of boosting the Molders along a little further towards the top, the former defeating the Youngstown boys and the latter the Rubber Necks of Akron.

The two games at the bargain matinee, at Wehrle Park, Tuesday afternoon were interesting from the time Umpire Hart called play in the first game until the finish, and a number of high class plays were made by both teams.

Your Uncle Joseph Stout was the man largely responsible for the result, pitching both games, allowing eight hits in the first and but one in the second. Had it not been for Mr. Kerr's little blunder in the seventh 't would have been a no-hit affair.

One Mr. Malarky tried to stop the Molders in the first and did excellent service, allowing but four hits, but it was all in vain for the big three-bagger swat of Dr. Abbott's in the third winning run. Malarky pitched a pretty game but Uncle Joe was the whole cloth. His foolers were wonders and not a Sharonite crossed the home plate. Verily it was an on day for the three S aggregation. The down east boys had several good bets in the sixth and seventh innings but they could not pull them off. In the sixth Greene got a double, was advanced to third by Patterson's line drive to first put died there on an out by Mathey to Abbott. In the next Kerr followed with a double, was sacrificed to third by Sellers but died in attempting the squeeze. That was the best they got in either game.

One Bunney Pearce caught both games and he did yeoman service. Equipped with a brand new bat he started forth to fatten up his excellent batting average but the fates were against him, for while he faced the twirler six times he was not credited with a single time at bat, receiving four free tickets, was hit in the slats once and was credited with a sacrifice. He it was who copped the only run, crossing the plate on Abbott's three sacker.

Just to show his friends that "THE EVENT" of Wednesday evening was the proper thing to do "Sandy" Murray cracked out a single, a double, and a three bagger, the latter two each bringing in a run. Lefty Snyder hit the ball on the nose for a beautiful two base hit to deep right center but was nipped by trying to stretch it into a three bagger. The effort was a worthy one and Lefty proved a great sprinter but was not quite fast enough.

During the first few innings of the first game Mathey, the comic lad of Pennsylvania fame, kicked on nearly every decision of the arbitrator until it became necessary for Manager Pat to call his tail enders down and admonish them to get into the game and play ball. Pat, by the way, broke in a new glove and had to take a little good natured kidding about it. In the fifth Mathey got stung on one of his potato grabbers and it took the combined efforts of Bunney Pearce and several of the Sharon players to get it in shape so that play, which had been called, could be resumed. In the seventh with Kerr on third a squeeze was attempted. Cleaves was handling the stick and had two against him when the signal was given and Kerr started home. Cleaves struck at the ball and Kerr was caught but his umps called the strike a ball. This caused some dissatisfaction and the fans gave Hart a roast, but he claims he did not see Cleaves take the swipe.

In the first inning of the second game Haval run and made a one-handed pick-up of Mathey's hot grounder, catching him at first. He was compelled to doff his cap. Gygil came in for his share of the applause by making a great one-handed catch of a ball thrown by Wratten which went a little wild, retiring Sellers.

Manager Van left the first sack in the second game and relieved Mathey, McClafferty taking the first bag. Chick Strom did the twirling but didn't burn up any balls as he allowed eight hits walked three men and only struck out one. There never was a ray of hope at any time for the tail enders and they did not succeed in fattening up their averages. Pitcher Joe out-guessed them from start to finish and received excellent support all the way through. How the runs were made.

The first and only run of the first game was made in the third inning. Pearce walked, was sacrificed to second by Stout and scored on Abbott's triple, the latter being caught on the line between third and home. Snyder followed and fanned.

The run getting in the second game was started in the third when Gygil singled and was sacrificed by Bunney, scoring on Stout's two bagger. Abbott went out on a fly to center and Snyder hit an easy one to Chickie Storm, but that gentleman made a wild throw to first and Stout crossed the pan. Wratten was out on a high one to Kerr.

In the fourth Schweitzer drew a pass but was nipped at second by Greene's throw of Haval's bingle. "Sandy" Murray, he who will take part in the greatest game of his life this evening, stepped to the plate and smashed one down to the score board reaching the third station, while Haval trotted home. Gygil reached first on fielder's choice while "Sandy" was caught on the line. Cleaves to Patterson.

In the fifth Pearce walked, was sacrificed to second by Stout McClafferty, Pearce taking third. Lefty hit a hot one to Greene and was caught before he could reach the bag but Bunney scored on the play. Wratten flew out to Kerr.

In the sixth the cheese man hit a safe one and was sacrificed by Haval, reaching home on Murray's two bagger, the latter being caught between third and the home plate after Gygil had singled. Pearce for the fifth time walked to first but died there, Stout

struck out. This ended the run getting.

## GOVERNORS OF OHIO

CHARLES FOSTER—1880-1884.

Charles Foster, governor of Ohio from 1880 to 1884, was born in Seneca county, O., April 12, 1823, making that his home through life. His parents came from New England when the county was a wilderness, and his early life was the one of the early Ohio settlers. This brought him into sympathy with the common people of his country, and when in 1870 he was elected to congress it was by a large plurality in a district politically strongly against him. He carried his honest business principles into his public life, making him one of the Republican leaders. He was nominated and elected as governor on the Republican ticket in 1879. He was strongly in favor of taxing liquor, being in advance of the ideas held by the majority of the people at that time.

FROM THE SPHERE

MARQUIS ITO &amp; THE CROWN PRINCE ON THE RIGHT

Seoul, July 24.—The abdication of the Emperor is his first communication to the world since the repudiation of the convention of 1903. A translation of the text of the edict follows:

"I have been in succession to my ancestors on the throne 44 years and have met many disturbances. I have not reached my own desire. While ministers are frequently improper men and progress is not controlled by men, the times are contrary to

natural events. A crisis extremely urgent in the life of the people has arisen and the progress of the state is more than before imperilled.

"I fear a danger like that befalls a person crossing the ice. Fortunately we have a son endowed by nature with virtue, brilliant and well worthy of being charged with plans for the development of the government, to whom we transfer our inheritance, sanctioned by the customs of ancient times.

"Therefore, he it known that as

soon as it is proper to be done, we will hand the affairs of state over to the crown prince as our representative."

Court usage is said to make the meaning of the above an actual abdication.

While insufficient time has elapsed to show the effect of the Emperor's action upon the situation, advisory opinion at the Japanese residence general regards the abdication as taking away the force of Japan's intended blow.

RACES CALLED OFF.

Detroit, July 24.—The Grand Circuit races for today were called off on account of rain.

THE FIRST STEAMBOAT

The first successful steamboat was built by a man who kept his eyes on Rumsey and Fulton, and Symington, and made his boat of what he saw.

As all the world knows, this was Robert Fulton. In August of 1807, Fulton's steamboat, the Clermont, made a trip on the Hudson river from New York to Albany, a distance of 150 miles in 32 hours, and returned in 30 hours. Fulton advertised for passengers, and his boat, was soon crowded.

"The Clermont" says an English writer, "was the steamboat that commenced and continued to run for practical purposes, and for the encouragement of its owners." Here was the boat that was wanted, one that was successfully profitable.

Detroit, July 24.—Reproachless, a black daughter of Direct Hit, that won the stake 5 years ago, proved to be much the best of the Chamber of Commerce pacers and took down the big share of the \$5,000 classic at Grrosse Point. The victory of this mare was clean and while her performance is a record slower than that of Ardell in the record time for the stakes it is a good one considering the track, which was practically a second slow. The Grand Circuit never had a more auspicious opening and nearly 10,000 people participated.

THE DYSPEPTIC.

In his rounds this morning an Advocate man met a mid-summer dyspeptic who had in his pocket a bottle labeled "Shake" well before using. Take a tablespoonful before each meal. The miserably before and a few peppery points which the Advocate man caught hot from the hat. Here they are:

"The great articles in the Ohio Magazine on Newark were a fine explanation of Newark's hustling Board of Trade. The photographs of Black, Nephth, Bisher and others, were really portraits of handsome men of whom Newark is justly proud, but why were the industrial faces of Brown, White and Heley left out?"

"If you are a real merchant in our Board of Trade members to think that Newark could be written without even including the military records of our brave sons of our Spanish war."

Those washable four-in-hands just the thing. Fine line at EMERSON'S.

years ago, what a figure the automobile was destined to cut in the modern pastoral visit?"

"They say the Glidden tourists encountered the worst roads between Canton and Pittsburg. They surely must have noticed the auto-marring inequalities of Union street. It is like the road to Bumpville. From Fine street to Beuhler's it comes dangerously near the definition of a crime. Let us pray that it may be paved soon."

"The doctors were early tried and true friends of telephone promotion when the independent movement was in its infancy. They now find the automobile a handy ambulance."

"Now, honor bright, does the average minister really enjoy Sunday more than Monday, these days?"

"In a neighboring city the First church Methodist minister bought an automobile. A year or so afterwards the pastor of the Second Methodist church also bought an auto. He met some harping criticism from the maiden ladies of his congregation, but a younger sister voiced the sentiment of a majority of the congregation, when she declared, 'I don't want to see that First church preacher get ahead of ours anyway. So there.'"

## Prolonged Life

There are many persons living to-day, whom doctors have given up to die. Dr. Miles' Heart Cure has added years to their lives. It strengthens the heart nerves and muscles, restores normal heart action, so that it can send the blood through the veins to nourish and sustain life.

"I am glad to recommend Dr. Miles' Heart Cure and Nerve for they have been of great benefit to me. The doctors said I was liable to die any time; my case was incurable. I was told this by doctors in this village and Southern Minnesota. I have used four bottles of Heart Cure and the same of Nerve, and although not a young man, having passed through the war, I feel younger than I did before. I am feeling better in every way and sleep like a healthy six year old boy. I was advised to use your medicines by a man who is now a perfect specimen of manhood. He tried Dr. Miles' Heart Cure and he said it cured him of heart trouble, twelve years ago after the doctors had given him up to die. CHAS. E. MURPHY, Verdala, Minn.

Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money.

## THINKS U. S. SHOULD WATCH JAPAN.

HOMER B. HULBERT.

New York, July 24.—To one familiar with the Japanese national character the position taken by the Herald as to the sending of a fleet to the Pacific is the only correct one," said Homer B. Hulbert in discussing the possible international effects of Japan's general encroachments in Korea.

Mr. Hulbert's 21 years of residence in Korea, his intimacy with the Emperor Yi, his close range observation of Japanese aggressiveness in the Orient and his semi-official diplomatic work in behalf of Korea render his opinions as to the Japanese question of great value.

"One thing is absolutely certain,"

continued Mr. Hulbert, "and that is that the United States did a very wise thing when it brought its battleships back from the Philippines in my opinion, they were in positive danger from Japan. We should not leave two or three battleships in the Pacific. Either keep them all away or send a big fleet there. Satisfy lies in no other course."

"I do not wish to even seem to be trying to foster a war spirit. I am not a jingo. But in their complacent American way the people of this country are taking too lightly, as I believe, a question of the deepest importance, not alone to us but to other great powers."

## NEWARK BOYS ENJOYING CAMP AT PT. CLINTON

MEMBERS OF COMPANY G HOLD  
THEIR OWN ON THE RIFLE  
RANGE.

Heavy Rain Made Camp Ground Look  
Like a Lake—Boys Well  
Happy.

Camp Perry, O., July 24.—The Newark boys of Company G, Fourth Regiment, arrived in camp at 1:30 Sunday afternoon in good condition, erected their tents and after a mess a storm came up, continuing all night. The fellows had to build bridges to enter their tents and the camp ground looked like miniature Lake Erie. There is no such drainage here as in the Newark camp ground.

The weather cleared Monday morning and the Newark boys went on the rifle range at 6:30 a. m. The strong wind then blowing prevented any big scores but nevertheless the Co. G boys are holding their own on the range.

There is no sickness among the Newark fellows and all are enjoying the camp life. The G boys are anxious to get hold of the Advocates and about the first thing they look for is the base ball score. All are pulling for Newark and are glad to learn that Joe Sioup and his assistants shut out the Sharon team twice on Tuesday.

## WHERE IS GIFFIE?

Mr. Giffie of Chicago returned home today. Mrs. Richard Giffie leaves in about a week for his home and will reside with her father-in-law's folks for a short time. Mr. Giffie was called here by the disappearance of his son.

It is said that some of Giffie's co-workers in the Wehrle foundry know more about his disappearance than they want to tell, and that he is working in another city.

On the other hand, Mrs. Giffie is of the opinion that her husband has not deserted her and that he has either been the victim of accident or foul play. Nothing further has developed in the case.

## URGES UNION

Caracas, Venezuela, July 24.—Suggesting that the Spanish-American republics meet in congress and themselves approve and proclaim the Drago doctrine, now that the powers have ignored it at The Hague, a correspondent of the official government newspaper, El Constitucional, in a presumably inspired article, sounds the note for a "union against the common enemy, against the ambitions and egoism of the strongest." This article has caused much comment in Caracas, because it is published on the day following the presentation by Minister Russell of Secretary Root's second note to Venezuela, in which he says that President Castro's refusal of the demand presented by the American government in March for the arbitration of American claims is unacceptable, and again insists on a satisfactory consideration of the claims presented. The United States is directly alluded to in connection with the annexation of Texas and the independence of Panama.

## AMUSEMENTS

**IDLEWILDE CASINO.**  
The play at Idlewilde for tonight and tomorrow night will be a military drama entitled "A Man Without a Country." This offering the Grahame Stock company promises as one of the strongest the clever organization has yet given the Park patrons. Some of the finest repertoire performances ever seen in Newark are being given nightly by the Grahame company at Idlewilde; and this stock organization has become the most popular of any recent similar attractions.

The vaudeville will be entirely changed tonight and will include the Wilsons in a new sketch, Al Fey-burne's roller skate dancing, James Coatta's clever balancing and De Blaker's hit, the Lilliputian dog circus.

An amateur contest open to all comers will be given next Friday night. A special feature of this contest will be two one act versions of Dr. Jekyll and Mr. Hyde, presented by Mr. Carl Reynard and Mr. Boney Davis, in opposition to each other.
